NO USED COOKING OIL

Waste paper, plastic and mixed waste is collected house-to-house, which means that the waste is collected from in front of each house on specific days according to a timetable. Waste must therefore be sorted according to type.

The territory is divided into zones: check which zone you are in based on your address and check the collection days on the calendar, which is available at the waste collection centres (URP) or on the website www.geovest.it

1 The bins/bags must be kept on private property and put out, full, in the street the night before collection day, and in any case no later than 05:00 on collection day.

Residents in the old town must put bags out only on the day of collection and no later than 8:00. Businesses must put their waste out for collection when they open (contact Geovest if your business opens after 9:00).

2 Correct use of the bins/bags for the separation of materials:

PAPER should be placed unbundled in the blue bin. It should never be placed inside a plastic bag. Residents in the old town must put paper bags containing the loose paper out for collection. Any excess quantities can be placed in a paper bag or cardboard box and left next to or on top of the respective bins.

PLASTIC PACKAGING should be placed in the yellow semi-transparent bag. Packaging must not contain any residues. Moreover, in order to reduce volume, plastic bottles and containers should be flattened. With regard to condominium bins, the supply of bags by Geovest is not envisaged. Therefore, plastic packaging must be placed in the bins loose or in plastic bags reused in the home.

MIXED WASTE must be placed in the grey microchipped bin, either loose or in general bin bags (the yellow bags provided by Geovest may not be used as these are to be used only for plastic packaging waste). Each household has its own bin for mixed waste. It is therefore necessary that each user makes their bin identifiable by affixing an identifying mark (a sticker or label with their name or house number). Residents in the old town must place mixed waste in the grey microchipped bags provided by Geovest.

GLASS AND TIN CANS should be placed loose in the green bins/bell bins after having removed any residues. A house-to-house collection service is provided for users in the agricultural zone.

GARDEN WASTE (grass and leaves) should be placed loose in the relative street bins. Remember not to use a bag.

ORGANIC WASTE (food and cooking waste) should be placed in well-closed, biodegradable bags or in paper bags and then placed in the relative bins on the street.

3 Check the calendar or the website: www.geovest.it/i-comuni/ to find out where you can obtain the relative supplies for sorted waste, bags, bins, etc.

4 The bags distributed by Geovest must only be used exclusively for the specific waste collection purposes for which they have been designed, taking care to avoid any wastage.

5 To reduce the consumption of the mater-bi plastic bags, it is possible to use plastic shopping bags made from biodegradable material (e.g. mater-bi, bioplastic) or paper bags.

6 Each user is responsible for cleaning the bins provided to them.

IT IS FORBIDDEN

- To leave waste lying on the ground even if right next to the street bins.
- To place extraneous waste in the street bins provided for organic and glass waste.
- To put waste out for collection in bags or in bins on days other than those indicated in the waste collection calendar.
- To use the trolley bins for paper and plastic packaging that have been assigned exclusively for use by businesses.
- Penalties will apply in the event of any breach of these rules.

BULKY WASTE

You can book the bulky waste home collection service free of charge by calling the toll-free number or by sending an email to info@geovest.it.

The service allows for the collection of one large item or three small items:

large items (modular items): sofa, wardrobe, bookcases/shelving, modular furniture.

small items (single pieces): washing machine, armchair, radiator, mattress, table, fridge, carboy, television, shelf, chair

DOMESTIC COMPOSTING

To request the composter on a free loan for use basis, download the form from the website <http://www.geovest.it/modulistica/>, or request it at the Geovest helpdesk during the hours indicated below.

COMMERCIAL CARDBOARD COLLECTION

Businesses, shops and offices in urban areas may request the service to collect cardboard waste from their premises.

To activate the service, send an email to segreteria@geovest.it or call the toll-free number.

WASTE COLLECTION CENTRE

It is possible to take all sorted domestic waste to the waste collection centre free of charge. It is not possible to take unsorted waste or non-domestic waste to the waste collection centre.

Via Bologna, 96

(entrance in Via Muzzinello)
